III About Avantika University

Avantika University at Ujjain is part of the MIT Group of Institutions, Pune. The university has contributed towards the industrial, economic, and social growth of the society, and has helped realize the dreams and aspirations of lakhs of students. It makes an obvious destination for aspiring young minds who are in pursuit of the best scholastic experience. With a rich legacy of fostering world-class academic excellence, Avantika University nurtures students to become the torchbearers of the future.

It is our mission to provide contemporary and personalized education with a 21st-century curriculum and learning focused on what really matters in life. We nurture a robust ecosystem led by innovation and enterprise to generate exciting research and creative outcomes, ensuring a high-quality student experience through a breadth of activities and opportunities with an emphasis on experiential learning.

Our faculty combine their academic excellence and real-world experience to create a joyful and collaborative learning environment, guiding the students towards their goals.

III Message from Leadership

At Avantika University, education is not confined to classrooms; it is practised, experienced, and lived. What makes Avantika distinctive is our interdisciplinary approach. Students across domains gain diverse perspectives that mirror the complexities of the real world. Through industry immersion, live projects, field exposure, and continuous mentoring, we nurture critical thinkers and confident problem-solvers. Our focus is not only on employability but on empowering students to become innovators, leaders, and creators of opportunity.

~ Dr. Nitin M. Rane - Vice Chancellor

The educational landscape is rapidly evolving, compelling HEIs to move beyond traditional boundaries. In this era shaped by artificial intelligence and digital transformation, Avantika University remains committed to delivering a future-ready, interactive curriculum that nurtures critical thinking, problem-solving skills, digital literacy, and emotional intelligence. Through project-based learning (PBL), interdisciplinary exposure, & cross-cultural competencies, we prepare students to thrive in technology-driven global industries. Our learners are empowered to innovate and lead in today's competitive economy.

~ Prof. Dr. Surendra Rahamatkar - Pro Vice Chancellor
